About ASCG

If you are a business owner, entrepreneur, corporate executive, or director you will need to have knowledge of the following to do your job properly and give yourself the best chance of success:

- Company Affairs
- Corporate Governance
- Secretarial Practice
- How to run a sustainable business
- Risk management
- Company structure
- Company Law
- Securities Laws
- Stakeholder engagement
- Regulatory Affairs
- Regulatory Work Procedure

These are interesting and essential topics and all are covered in this course from basics to advanced levels with the right amount of detail.

Objectives of the program

IBER of United International University and Chartered Skills jointly designed the Advance Skills in Corporate Governance (ASCG) to equip a Certificate with Corporate Governance to meet the local and global human resource needs and develop well-equipped professionals with proper professional skills and knowledge of Corporate Governance. ASCG would be the ideal certification program offered in Bangladesh for those who want a better understanding of the Corporate regulatory system, functional frameworks applied in the Corporate environment and practice.

Why should we study ASCG?

- Everything about corporate governance and company matters from the basics to advanced
- About culture and ethics within a organization
- Environmental, social, and governance issues (ESG)
- How to make an impact in the corporate world and how to boost your career
- How boards and board committees work
- All about risk and risk management
