Course Curriculum

Advanced Skills On Fashion Designing

Course Description:

Nowadays, a lot of designers are using Adobe Illustrator to draw their ideas on a digital screen but most of them actually don't know how to use it properly. Thus why they face problems with editing, creating colourways and reusable components properly. Keeping it in mind, we designed this course from beginner to advanced level so that you can be benefited with proper understanding with your ideas and tools. This course has been tailored specially for fashion designing using adobe illustrator focusing on industrial needs. It will let you know about features and techniques relevant to illustration, garment needs and drawing fashion flats. It's going to be an important part of your resume.

Course Requirements:

- You need the latest Adobe Illustrator installed in your PC or laptop because some features might not be available in an older version.

Course outline:

This course is divided into three levels –

- Beginner
- Intermediate
- Advance

It starts from illustrator terminology and interface so that starters can have a complete idea with fashion design. After beginner level, you will have garment drawing workshop step by step which will improve your understanding unbelievably.

What you'll learn:

- You will have a good foundation in drawing fashion flats
- You will be well on your way to becoming a fashion designer with expert skills in Adobe Illustrator.
- You will be ready to progress to the intermediate and advanced training with the details and links to these additional online courses provided in the course summary.
- You will stand out from the thousands of fashion design graduates and make yourself more attractive to potential employers.

Who this course is for:

- Suitable for fashion design students
- Suitable for freelance fashion designers
- Suitable for company fashion design employees
- Suitable for anyone looking to learn how to draw fashion using Adobe Illustrator
