Piano Course for Beginners

Course Description:

Do you want to play your favourite song by ear, without having sheet music, chords or melody?

After this new 2.5-hour section you will be able to sit at the piano and play any song, just by listening attentively, derive chords and melody and then play the song, by ear!

Surprise everyone playing any song on the piano with this amazing technique!

In order to play the piano or keyboard well, you have to practice scales. But only endlessly going up & down the scales is not a very fun way of learning the piano or keyboard, that's why in this course you practice the scales in songs that contain just the notes of that particular scale.
